Dear Board Members

United Christian Campus Ministry (UCCM) received a grant for 2007 to purchase a laptop computer and software. We have purchased a HP Notebook computer and the MS Office Professional software with the grant money. Rebate money was used to purchase a wireless mouse, a memory stick and a computer case.

We are grateful to you for the grant to help the ministry move forward in this age of technology. The computer along with the portable projector that we purchased several years ago will help us get the ministry's story out to the supporting churches as well as to potential supporters. We couldn't have purchased the computer without your assistance

UCCM has been building a donor constituency list through the MS Access program in the software. Currently we have 500 names of potential donors that include alumni, board members, and friends of the ministry. The list continues to grow. The software will help with tracking and organizing these names when sending out information for our first annual campaign in 2008.

Thank you again for your financial support, your prayers and the annual grants that you offer.

Blessings on all that you do

Rev. Nancy L. Cooper
